

Backpropagation + Assignments 4, 5

(Neural Networks Implementation and Application Tutorial)

Vilém Zouhar, Noon Pokaratsiri Goldstein

8th, 9th December 2021

Overview

- Feedback
- Assignment 4
- Backpropagation
- Assignment 5

Feedback

- What do you like the least about this course?
- What works well in this course?
- What would you change?

Assignment 4

- Who wants to present their solution?
- Any questions?

Backpropagation

Questions 🤔

- What is the computation graph?
- What key property must this graph satisfy?
 - ▶ Can it be used for optimization?
- What is the *forward pass*?
- What is the *backward pass*?
 - ▶ Why do we do it?

Go through the example in **awesome Stanford slides on backpropagation** (slides 42-83)

Assignment 5

Any questions?
